LOUISVILLE.

SATURDAY, DECEMBER 13, 1856. The Daily Journal has much the largest circulation in the city and double the circulation in the country of any other daily paper printed in Louisville; and the Weekly Journal has much more than double the circulation of all the other papers in Louisville put together.

erlt is not a little singular with what great faility the Sag-Nicht organs can blow hot and cold out of the same mouths. This faculty is peculiar to modern Democracy. It can with perfect Iremocratis high tariff in the East, pro-land-distribution in o section and anti-land-distribution in another, and racy. They begin to think that politics have nothing to do with municipal affairs. This modern Demonstrate to do with municipal affairs. This modern Demonstrate the cause of this new testament. Is any one so the cause of this new testament. Is any one so redulous as to believe for an instant that, if all the settle of the street opportunity. This indicate the cause of this new testament. Is any one so redulous as to believe for an instant that, if all the settle of the street committee of the street Committee of the street Committee of the street Committee of the street and Committee on this resignation, in order to join Gen. Walker, in Nicaragua, at the first opportunity. This indicate the cause of this new testament. Is any one so

erned, by Democratic office-holders, from the Mayor down to the meanest scavenger, but we hear nothing of this new Democratic revelation in the city of New York. It is only in those cities where the Democracy are in a minority that the new revelation will be heard of at all. But the Sagressian of Louisville have been recently filled Nicht organs of Louisville have been recently filled threatened interference of the Western Powers, says: range desire to advance the interests of ou. city. Less than a year ago they strained every nerve, they resorted to the vilest calumnies, false-hoods, and misrepresentations to destroy its credit and retard its progress. At the very moment when perity, the chief Say-Night organ here commenced the whole city with the gloom of desolation. The ndeavored to retard and obstruct every effort for is advancement because the Sag-Nichts had been efeated by the legitimate vote of its citizens. In the meantime the municipal authorities and the ma romote our civic prosperity. They have insured tion of water-works. They have aided (despite the objections of the Sag-Nichts) the completion of the Nashville Itailroad, and a "Know-Nothing" municipal Government have held an election that was re peaceable than any election that has been held Louisville for twenty years; despite Sag-Nicht op-

in advancing their municipal interest We hope this is a promise of an amendment on the part of the Sag-Nicht organ, and that hereafter we may find in it a co-worker in behalf of the best terests of our city. There is, to be sure, a little liscrepancy in its lamentations; while it pretends to our municipal prosperity, it admittly endeavors to make political capital out of them and insinuates that the result would have been different under Insuous Democracy! Most self-sufficien

position, peace and prosperity and order have been re-stored, and now, with crocodile hypocrisy, the chiel Sag-Nicht organ laments the supineness of the citi-

Democracy! Most humble, office-despising Democracy! If it only had all the offices, if it only had scrapers, how different would everything be! The city is now prospering. The poisoned fangs of Democracy have been lossened from its vitals for a few months, and the natural advantages of its loca-tion have been restored, and the wonted activity of rade and manufactures is again enjoyed. Every thing is propitions, but the envious Democracy is dissatisfied; it desires to introduce a new fire-brand

It is understood that another Pacific railroad bill is about to be introduced in the House. It is on a magnificent scale, and is cutified "A bill to provide for the construction of a railroad and telegraphic communication from the Mississippi river and Lake Superior to the Pacific ocean." Three main roads are projected, viz: the from a point on the Mississippi river south of 36 to Nan Francisco, with a debanch to San Biego. Another from some point on the Mississuri river north of lat. 49 to San Francisco, with a branch to Marywille, Sacramento, Stockton, and San Jose. The third from some point on Lake Superior to Pugets Sound, with a bounch to the mouth of the Williamette river, the Company's earnings reach six per cent., after which the guarantee will be £10,000 fer annum for twenty-five years, or such larger sum as the Government of these routes the bill propose to grant 30.
